## TO OUR GRADUATES

**Thank you for joining the Cougar family.** It has been our privilege to take this journey with you over the past few years.

From this moment on, you are forever part of Washington State University.  
And wherever you go from here, part of WSU goes with you.

Go Cougs!

## TO OUR VISITORS

Thank you for supporting your students! Washington State University enthusiastically welcomes all who have come to the Pullman campus to honor the final graduating class of 2021. We're proud of the growing family of Cougar alumni and are honored that you have chosen to celebrate the achievements of our newest alumni with us.

PRESIDENT  
WASHINGTON STATE UNIVERSITY

## CONGRATULATIONS ON YOUR ACCOMPLISHMENTS!

Congratulations, Class of 2021, on completing the requirements for an academic degree from Washington State University. It is an honor to celebrate the outstanding achievements that brought you to this pivotal moment.

I salute your efforts, as well as those of everyone who helped you reach this milestone. In the face of COVID-19, you demonstrated the resiliency and can-do attitude that Cougs are known for worldwide. You adapted, persevered, and stayed focused on the ultimate prize of earning a degree.

Now, and with the mentoring of the entire WSU community and the support of your family and friends, you have completed a monumental learning journey. Take time to celebrate this life-changing accomplishment.

As you join a Cougar alumni community that spans the globe, I encourage you to remain involved with your alma mater. As you know, “Once a Cougar, always a Cougar.” Going forward, you’ll find that your WSU friends, colleagues, and Cougar alums always have your back—both professionally and personally.

Best wishes, and Go Cougs!

A handwritten signature in cursive script that reads "Kirk H. Schulz".

Kirk H. Schulz, President  
Washington State University

### WSU PRESIDENT KIRK SCHULZ

*Kirk Schulz became the 11th president of WSU and a tenured professor in the Gene and Linda Voiland School of Chemical Engineering and Bioengineering on June 13, 2016, after a seven-year tenure as the president of Kansas State University. President Schulz has made a remarkable impact while serving as WSU's chief executive. The milestones achieved under his leadership include record student enrollment, record research and development expenditures, the addition of new academic degree programs to meet state needs, and the continued growth of the Elson S. Floyd College of Medicine, which graduated its first class of students in May 2021, marking another major achievement in the university's efforts to change the face of health care in Washington.*

**DOUGLAS CALL**  
 REGENTS PROFESSOR,  
 BOARD OF DIRECTORS, WASHINGTON STATE ACADEMY OF SCIENCES  
 FELLOW, AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Congratulations graduates! You have completed an enormously important step, and while the past four years have been an investment that will pay dividends for the rest of your lives, it is also something that no one can take away from you. You should be proud.

I remember my own graduation from this same institution (long ago). As a first-generation college graduate, my only “vision” was to find a job in my field of study and to work on additional credentials. I was in such a hurry that I never really considered what my degree meant and how it would profoundly influence the rest of my life.

Earning your degree opens many doors in your professional and personal lives, but the degree you have earned is also unique from what can be had in many other countries. That is, your degree represents a *liberal education*. And as part of this liberal education, it is essential that you understand the meaning of the word “liberal” in this context.

There are politicians today who seek to redefine “liberal” in an educational context as representing political and religious ideologies. This is profoundly incorrect. A liberal education is meant to cultivate you as a free (Latin: *liber*) human being. That means you are equipped with the tools needed for self-reflection and being open-minded. That means you are equipped to function in society as a person who the American Association or the Advancement of Science describes as “free from provincialism, dogma, preconception, and ideology; conscious of [your] opinions and judgements; reflective of [your] actions; and aware of [your] place in the social and natural worlds.”

It also means that you can employ your skills to think for yourself rather than conforming to “higher authorities.” Doing so also makes you a candidate as a leader in your community, and this is where your responsibility comes into play. Our world needs clear thinking people who can keep the pot from boiling over with hyperbole and instead help others focus on the key ideas that are needed before making important decisions.

You also learned, or at least glimpsed, the power of being able to communicate with the written word. I confess that this was the furthest thing from my mind when I graduated, but over the course of time, writing has become my primary and best skill both in my professional and layman experiences. As a technical writer and a local columnist, I’ve come to appreciate the value of writing if only because it forces me to clarify my thinking. And in doing so, I can help others clarify their thinking.

Writing is an art and with few exceptions it is a skill that you have barely begun to explore and develop. I encourage you to capitalize on what you have learned and to keep building your skills with the written word both at your jobs and in your communities. Writing letters to the editor of your local paper is one useful way to force yourself to get better at expressing ideas and helping other people better understand the world at the same time.

Good luck, best wishes. You have earned your place in the greater Cougar family, and WSU will always be a part of your lives. Go Cougs!

**BRIAN PATRICK**  
ASWSU PRESIDENT

**NOLAN  
THOMASWICK**  
ASWSU GLOBAL  
PRESIDENT

**MARWA ALY**  
GPSA VICE PRESIDENT

To the fall graduates of the Class of 2021, as well as those who did not have the opportunity for a live ceremony from the 2020–2021 school year:

On behalf of your student governments, the Associated Students of Washington State University, the Associated Students of Washington State University Global, and the Graduate and Professional Student Association, congratulations on reaching this amazing milestone and graduating from Washington State University! We would like to take a moment and applaud you on this remarkable accomplishment. All the struggles, successes, and self-discovery over the years have amounted to this moment of reflection and celebration. You have worked hard to be sitting where you are today, so carry your degree with pride!

Throughout your time at WSU, we hope that you took advantage of the student involvement activities, research opportunities, and student services offered in addition to your academics. This well-rounded educational experience is unique; we encourage you to spread this knowledge and allow it to guide you as you make your contributions to the world.

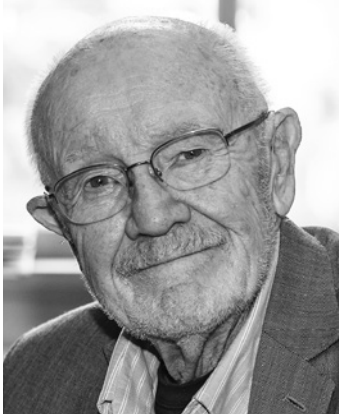

Commencement marks one of the most joyous landmarks in your academic path, and we all deserve the opportunity to celebrate and be recognized. Therefore we invited the graduates from fall 2020 and spring 2021 who did not get a chance to attend an in-person commencement. We invite all of you, graduates past and present, to reflect on your journey to today, and dream of where you will go. While there's so much uncertainty right now, be assured that your time here at Washington State University has equipped you to navigate the challenges that lie ahead. Your path to graduation is proof that you have developed the resilient characteristics of a WSU Cougar, especially in a year with as many unpredictable challenges as this one. As you move forward to your next endeavors, remember that Washington State University will always be your home. We encourage you to remain engaged with fellow Cougs as active alumni. Stay connected with the friends and faculty who impacted your experience at WSU. Most importantly, remember that commencement represents the beginning of a new journey, just as promising as the last.

Once again, congratulations on your academic achievements; ASWSU, ASWSUG, and GPSA wish you the best of luck moving forward.

**WILLIAM D. LIPE**  
2021 HONORARY DOCTORAL DEGREE RECIPIENT

Professor Emeritus William D. Lipe stands among archaeology’s preeminent scholars. He is one of the discipline’s most trusted interpreters of the prehistory of the US Southwest.

In a distinguished career spanning more than six decades, Lipe has examined the goals, ethics, and professional standards of archaeological practice, becoming the single greatest contributor to these issues in his field. His work has significantly shaped the way archaeological resources are managed and how archaeology—in all its forms—is conducted today.

Lipe’s publications, teaching, and presentations to public audiences focus on 2,500 years of continuity and change in the cultural traditions that still orient the resilient Pueblo communities of today’s Southwest. This history is one remarkable thread in the rich fabric of the world’s history. Lipe’s work emphasizes the distinctive ways that the earliest Pueblo societies contributed and responded to the challenges of what’s sometimes called the “Neolithic Revolution”—the dramatic worldwide transformations built around the domestication of plants and animals, population increases coincident with decreased residential mobility, and the efforts of some individuals and groups to gain new levels of social power over communities and regions.

Lipe is one of the founders of “conservation” or “public” archaeology—projects that benefit society by studying archaeological sites impacted by the nation’s economic development. From 1978 to 1985 he led WSU’s collaboration with the University of Colorado on the vast Dolores Archaeological Program. This was one of the largest such projects in the nation’s history. It became a model for structuring large-scale archaeological investigations.

The nonprofit Crow Canyon Archaeological Center in Cortez, Colorado, which Lipe helped develop starting in the 1980s, is a 170-acre “living classroom.” It researches and helps preserve and protect the rich archaeological record of the Ancestral Pueblo Indian cultures of the region. The center teaches experientially through hands-on archaeological research. Lipe served part-time as its director of research in the late 1980s and continues to sit on its board of trustees. In 2018 the center established the William D. Lipe Chair in Research, a prestigious endowed position.

Lipe served as president of the Society for American Archaeology in the 1990s. After spearheading a remarkable array of achievements, he was recognized with the Distinguished Service Award, the society’s highest honor. In his role as president, Lipe laid the groundwork for establishment of the Register of Professional Archaeologists, which sets standards for professional ethics and research performance. Lipe is currently a member of the national board of the Archaeological Conservancy and has sat on the boards of a number of professional societies; he is also a fellow of the American Association for the Advancement of Science.

Since earning his PhD in 1966 from Yale University, Lipe has spent the bulk of his career at WSU—enthusiastically introducing students to the study of prehistory. He has mentored dozens of graduate students who have gone on to prominent and diverse careers in the field.

In retirement, Lipe continues to conduct research, serve professional organizations, and consult with policy makers on issues related to cultural heritage preservation. He also remains an active member of the WSU faculty, forging research collaborations, presenting colloquiums, guest lecturing, and mentoring the next generation of archaeologists.

## ACADEMIC REGALIA AND SYMBOLS

The academic regalia worn by graduating students—caps, gowns, and hoods—are part of a tradition that reaches back nearly 900 years to a time when universities were first being formed.

A statute from the year 1321 required all doctors, licentiates, and bachelors to wear academic gowns and hoods. These accoutrements denoted the wearer’s special status in a time when education was an extraordinary achievement. They had a practical side, too: gowns and hoods kept scholars warm in unheated medieval buildings.

Today, after receiving a charter, new institutions adopt a distinctive design for their own academic attire—yet these designs also follow a common code. In May 1895, an intercollegiate commission met at Columbia University to establish a uniform code for academic regalia that has been followed by US colleges and universities ever since.

### WSU’S UNIQUE GOWNS

A distinctive commencement rental gown for students earning PhD, EdD, and DNP degrees debuted in spring 2012. The gown is crimson with gunmetal-gray velvet accents and a matching velvet tam. WSU is the only university with a custom rental gown.

The purchased version of the gown is designed with a split hood, two silver WSU shield medallions holding the hood in place, two WSU medallion cufflinks on each sleeve, and other embellishments.

#### THE ACADEMIC COLOR CODE

You can identify the subject area of a college graduate’s degree by the color of the trimmings on doctoral gowns, the edging of master’s and doctoral hoods, and the tassels on the cap.

Agriculture: Maize	Forestry: Russet	Philosophy: Dark Blue
Arts, Letters, Humanities: White	Journalism: Crimson	Physical Education: Sage Green
Commerce, Accountancy, Business: Drab	Law: Purple	Public Administration, including Foreign Service: Peacock Blue
Dentistry: Lilac	Library Science: Lemon	Public Health: Salmon Pink
Economics: Copper	Medicine: Green	Science: Golden Yellow
Education: Light Blue	Music: Pink	Social Work: Citron
Engineering: Orange	Nursing: Apricot	Theology: Scarlet
Fine Arts including Architecture: Brown	Oratory (Speech): Silver Gray	Veterinary Medicine: Gray
	Pharmacy: Olive Green	

For more on academic regalia, visit the American Council on Education at [acenet.edu](http://acenet.edu).

### THE ACADEMIC COSTUME CODE: CAPS, GOWNS, AND HOODS

The American Council on Education maintains the academic costume code followed by all US higher education institutions.

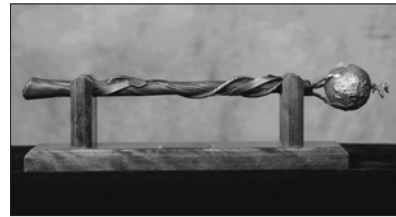

The approved attire for all graduates is composed of a cap and gown. For master's and doctoral graduates, a hood is included. The basic article of attire is the gown, usually black in color, and similar in design for all degrees. Doctoral gowns feature distinctive velvet trimmings on the front and three velvet bars on the sleeves; bachelor's and master's gowns are untrimmed. Gowns for those graduating with a bachelor's degree have pointed sleeves, the sleeves on master's gowns arc away at the front, and doctoral gowns have round, bell-shaped sleeves.

The familiar flat-topped cap—called a mortarboard or Oxford cap—can be worn by graduates regardless of degree. The color is usually the same as the gown; for four-year degrees, gowns and caps are always black. Doctoral caps are covered in velvet.

The hood has become the colorful standard bearer of academic symbolism. By examining the hood, it is possible to identify the degree level, the academic field of study in which the degree was earned, and the school that conferred the degree.

Hood length varies according to degree: doctoral, four feet with panels at the sides; master's, three and a half feet; and bachelor's, three feet. However, at WSU and many other universities, bachelor's degree candidates do not wear hoods. The color of the hood lining indicates the school that conferred the degree—for WSU this is crimson and gray, of course. The hood is trimmed or edged in a border of velvet either two, three, or five inches in width for the respective degrees.

### THE WSU MACE

The mace is a traditional symbol of legal and chartered authority; it is an evolution of the ceremonial scepters that have been carried by kings and dignitaries through thousands of years of human history.

The University Mace is carried today by Doug Call, chair of the Faculty Senate. He is accompanied by an honor guard consisting of Brian Patrick, president of the Associated Students of WSU (ASWSU), and Reanne Cunningham Chilton president of the WSU Graduate and Professional Student Association (GPSA).

Created in 1985 by WSU alumnus Tim Doebler, the two-foot-long scepter is cast in silver and bronze and weighs nine pounds. It features a globe atop a laurel branch wrapped in a silver ribbon and inscribed "Washington State University." The globe represents the universality of education and the quest for knowledge. Laurel crowns are symbols of achievement which date back to ancient Greece. Atop the globe sits an anvil, which symbolizes students forging and shaping new knowledge and capabilities.

Matthew Gabel

Dissertation: Ferroelectric and Excitonic Properties of Two-Dimensional Semiconductors.

Major Advisor: Yi Gu

Huichao Wang

Dissertation: Semiclassical Propagation of Coherent States and Wave Packets: Hidden Saddles and the Phase of the Complex Prefactor.

Major Advisor: Steven L. Tomsovic

**PLANT BIOLOGY**

Carsten Voelkner

Dissertation: The Role and Interplay of Ion Transport Proteins in Plastid Physiology.

Major Advisor: Michael Knoblauch

**PLANT PATHOLOGY**

Arunabha Mitra

Dissertation: Molecular Studies on Viruses Associated with Diseases of Two Small Fruit Crops in Washington State.

Major Advisor: Naidu Rayapati

Sajal Sthapit

Dissertation: Genetic Diversity, Population Structure, and Signatures of Selection in Wheat Populations.

Major Advisor: Deven Robert See

**POLITICAL SCIENCE**

Pip Cawley

Dissertation: Rebranding White Supremacy: An Analysis of the National Policy Institute.

Major Advisor: John Thomas Preston

Brenden Higashi

Dissertation: In Search of Empathetic Judges: The Role of Gendered, Raced, and Positional Experience in Forming the Judicial Role.

Major Advisor: Cornell William Clayton

**PREVENTION SCIENCE**

Alexa Carr

Dissertation: Examining History of Pet Ownership and Anima-Assisted Activities on First Semester Students' Transition to College.

Major Advisor: Patricia Pendry

Amanda McMahon

Dissertation: Exploring Technology-Supported Mindfulness Strategies in Emerging Adults with Intellectual and Developmental Disabilities.

Major Advisor: Anne Cox

Mashonda Smith

Dissertation: Transitioning to Adulthood: An Investigation of Developmental Predictors of Work Experience among High-Risk Status Youth.

Major Advisor: Matthew Bumpus

Jaymie Vandagriff

Dissertation: Examining Animal Assisted Activities as Stress Prevention and Mental Health Promotion Strategies on College Campuses.

Major Advisor: Patricia Pendry

**PSYCHOLOGY**

Ashley Anderson

Dissertation: Using a Bifactor Model to Evaluate the Association between Meanness and Sadism.

Major Advisor: David Marcus

Erica Bettac

Dissertation: Flexible Working Arrangements, Work-Family Conflict, and Culture: Multilevel Effects on Country-Level Outcomes.

Washington, my Washington,  
the Crimson and the Gray!

'Tis the song of memory  
that we sing today.

When the sad hours come to you  
and sorrows 'round you play,

Just sing the songs of Washington,  
the Crimson and the Gray!

Just sing the songs of Washington,  
the Crimson and the Gray!
